Our Playgroup is a hub of play designed to cater for children from birth to preschool ages. Facilitated by one of our Early Years Teachers, each week has a different theme, with craft activities and toys ever-changing (your child will never be bored!). There's so much benefit to children attending Playgroup, with opportunities to build upon gross and fine motor skills, plus important social skills, developing into independence within safe boundaries as your child matures. The format of our Playgroup mornings is the same each week, so even our youngest learners can start to grasp routine and patterns similar to those they will encounter at school. Plus there's free coffee for adults! No need to book, just come along!
